What’s New at Ergotron for Q4

Enabling remote collaboration to work from anywhere

Popular Movement Designs

- **CareFit™ Slim 2.0 LCD Cart**
  The improved design of the lightweight CareFit computer cart features a leaner, compact frame and makes it easy to move devices weighing up to 20 lbs. A large portfolio of accessories lets you customize the cart as needed.

- **WorkFit-TL**
  WorkFit-TL transforms your workspace and offers easy, crank-free height adjustment that holds up to 40 lbs. of office essentials on a large worksurface. Save even more with our WorkFit promo through the end of November.

- **WorkFit® Dual Monitor Kit**
  Upgrade your WorkFit to hold two LCDs above the desktop. It offers 5” of height adjustment to easily lift LCD screens to the proper height for ergonomic comfort. Take advantage of even more savings through our WorkFit promo.

- **StyleView® Pole Cart**
  This multi-purpose pole cart brings smart devices, supplies and more wherever they’re needed. The mobile design fits into tight areas and supports an optional hot swap battery (required accessory bracket coming soon).

Ergotron Updates

- **Ergotron in the News**
  CNET named our WorkFit-T as a top standing desk converter for 2020. The WorkFit-T features smooth vertical movement—without encroaching into valuable workspace—making it a great choice for home office workers.

  With promotions running now through the end of November as well as a generous seed program, there has never been a better time to let your customers experience our professional grade designs.

- **Special Pricing**
  - **WorkFit Promo (New items!):** SPR #3105304
  - **Healthcare Inventory Blitz (Extended!):** SPR #3106821
  - **Return to School Promo:** SPR #3105766

Open Up Your Space

Working from home has a long list of benefits but also has its challenges, particularly for those who don’t have a dedicated office space.

If you’re feeling the squeeze now that your home has become your workplace, we have a few helpful tips to revitalize your space and make it feel more open. Learn more in our recent blog post.

Safe Screening

Quickly detect a temperature in high-traffic public areas, offices, manufacturing facilities, healthcare centers or other locations with mobile thermal imaging.

Product Manager Peter Frank shares how Ergotron’s professional-grade thermal imaging carts support safe and healthy communities through temperature detection in this new video.
