SYNNEX SERVICESolv®

SYNNEX CANADA AND WINDOWS AUTOPILOT
THE FULL MODERN WORKPLACE SOLUTION

Together, SYNNEX Canada and Microsoft can help you seamlessly deploy Autopilot in Windows 10 devices for a full modern workplace solution.

Key benefits include: no more maintenance of images and drivers, less IT touch time, and a simple process with devices ready to go out of the box!

Microsoft Surface

Requirements:
- Windows 10 device
- Mobile device management (i.e., Intune)
- Relevant software and licensing: Microsoft 365 Business, Academic, Enterprise subscriptions, etc.

Value-Added Services:

SYNNEX Canada's Configuration Center can prepare the devices for your clients' use upon arrival.
This greatly reduces the work required by onsite technical staff and improves the end user experience.
Our top-notch services and support help you add more value to your customized orders while reducing touch time & eliminating DOAs and freight costs through direct shipping. Our value-added services include asset tagging, etching, and reporting for Windows devices. Let SYNNEX Canada be your one-stop-shop!
