

Devices for modern hybrid work and flexibility

To meet the challenges of today's workplaces, modern workers need more from their devices—and Surface provides the power, performance, and flexibility to get it done.

Elevate the employee experience

Surface devices unlock the productivity and collaboration experiences essential for hybrid work with touchscreen displays, HD cameras and studio mics, and industry-leading keyboards.

Connect teams to collaborate anywhere

Whether your teams sit next to each other or live halfway across the globe, they need a device that enables them to connect and collaborate from anywhere.

Meet the new demands of today's workplace with powerful devices that unlock your organization's hybrid work potential.

Get it done with flexibility and performance

To get work done, teams need devices with a choice of performance options and flexible form factors—and with Surface, you can enable your team to work on their own terms.

Deploy, manage, and stay secure everywhere

When combined with Microsoft 365, Surface devices enable simplistic deployment and management of applications while keeping your team safe, from chip to cloud.
