

Empower your way to win the business

Do you have a strategic opportunity in a competitive situation that needs an extra push to be closed?

Let's boost your sales. We provide expert migration so you can easily move your infrastructure from an on-prem environment to the cloud.

As you know, Microsoft Azure migration and modernization is a continuous process with opportunities for innovation and flexibility at every stage. Many organizations begin with an **Infrastructure as a Service (IaaS)** migration of their workloads to take advantage of Azure benefits immediately, while others start with Platform as a Service (**PaaS**) offerings to increase agility and developer productivity.

No matter which approach your clients are beginning with, they'll be able to start innovating in new ways right away. They can always adopt new IaaS or PaaS capabilities anytime. Encourage new customers to migrate to the Cloud. If you have a potentially great opportunity count on strategic bid support that can be applied to various sales and competitive situations.

Take advantage of the Azure Empower Fund Incentive to support and win your deal.
