

Get the most value from your cloud investment and transform your business

## Accelerate your migration and modernization with Azure

Let's go forward, together. Cloud migration and modernization is a continuous process with opportunities for innovation and flexibility.

Many organizations begin with an IaaS migration of their workloads to take advantage of cloud benefits right away, while others begin with PaaS offerings to increase agility and developer productivity. No matter which approach you begin with, get resources at every stage of your cloud migration strategy and modernization journey, including tools and guidance to help you move, manage, and secure all your customer's workloads.

**We provide expert migration so you can easily move your infrastructure from an on-prem environment to the cloud.**

TD SYNEX will help you navigate the Azure Cloud journey successfully and also help ensure that your organization realizes new benefits—including efficiency, agility, and scale—once your workloads are running in the cloud. You can purchase Azure as your clients consume it and only pay for what is used.

**To help you get started we have two incentive offers.**

Go ahead and make your choice:

### Azure Jump-Start: First Month Bonus Incentives Option 01

Receive up to \$500 to every new end-user that participates in fully deployed programs with active Azure resources within the first month of subscription through December 2022.

### Azure Jump-Start: First Month Bonus Incentives Option 02

Get up to a maximum of \$1,000 for every competitive opportunity to support migration to Azure and Modern Workplace.
