

Everywhere you connect, we give you an edge.

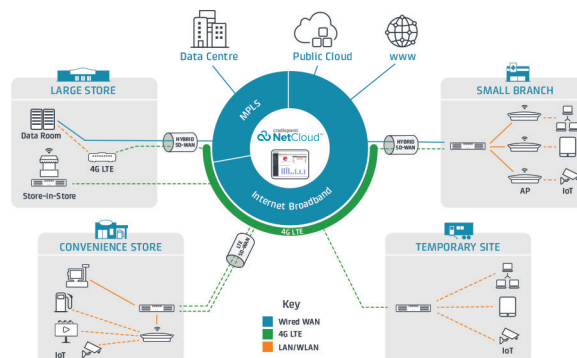

Connect More. Wire Less.

Branch Networks

Create, deploy & manage branch networks in days, not months.

Cradlepoint's NetCloud Solution Packages for Branch Networks deliver pervasive broadband connectivity, cloud-like agility, and software extensibility for fixed and pop-up retail locations, restaurants, offices, and more. Cradlepoint's Advanced Edge Routers are cloud-managed and can be deployed anywhere in days instead of months. Benefits include:

- + All-in-one design
- + SD-WAN for optimised LTE
- + Single-pane-of-glass management
- + Leading 4G LTE with pathway to 5G
- + Unified edge security
- + Comprehensive IoT support

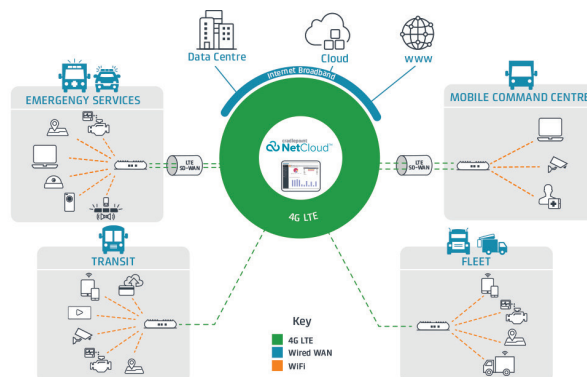

Mobile Networks

Provide secure, constant mobile connectivity for field forces.

Cradlepoint's NetCloud Solution Packages for Mobile Networks deliver pervasive broadband connectivity, cloud-like agility, and software extensibility for organizations that depend on field forces – such as emergency services, transportation departments, utility crews, and more. Cradlepoint's mobile routers are cloud-managed and can be deployed anywhere in days instead of months. Benefits include:

- + Ruggedised all-in-one solution
- + Mobile SD-WAN
- + GPS & telematics integration
- + Unified Internet security
- + Connect & protect mobile & IoT devices
- + Cloud management optimised for LTE
- + Advanced 4G LTE

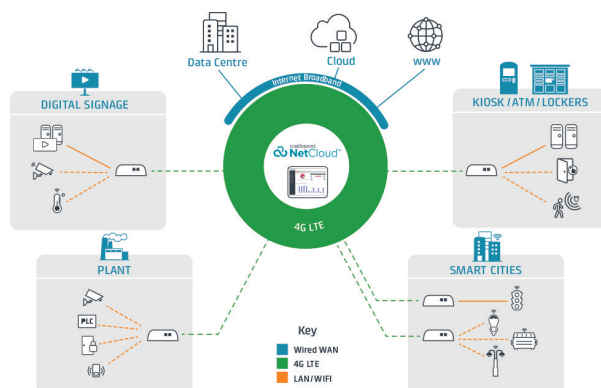

IoT Networks

Simplify how you connect, protect & manage IoT devices.

Cradlepoint's NetCloud Solution Packages for IoT Networks deliver pervasive broadband connectivity, cloud-like agility, software extensibility, and perimeter-based security for a wide variety of IoT and M2M deployments located anywhere. Cradlepoint's IoT routers are cloud-managed and can be deployed anywhere in days instead of months. Benefits include:

- + Compact & flexible solution
- + Extensibility dock
- + Device management & more
- + Built-in security for IoT & M2M
- + Edge Computing for customised cost-efficiencies
- + LTE leadership today & tomorrow

Raising Canes – Branch

SOLUTION:

AER Series &
NetCloud Manager

APPLICATION:

Primary Edge Routing, Failover, IPS / IDS,
Cloud Management, WAN

“Working with Cradlepoint allows me to go into a restaurant and say, ‘What’s the most effective way for me to watch costs and still get the quality of network connectivity I need?’ ”

cradlepoint.com/raising-canes

David's Bridal – Failover

SOLUTION:

ARC LTE Adapter &
NetCloud Manager

APPLICATION:

Failover, Centralized Cloud Management,
Future Proofing Network Operations

“When we first implemented NetCloud Manager (NCM), I divided our 330 stores into three groups. With just a couple of clicks, I can use NCM to upgrade all 330 devices in less than 10 minutes. That saves us a lot of labor and got our stores protected very quickly.”

San Antonio VIA – Mobile

SOLUTION:

COR Series &
NetCloud Manager

APPLICATION:

SD-Perimeter, M2M / IoT, Pop-Up Networks,
Network-as-a-Service, Cloud Management

“After the installations, Cradlepoint provided the resources need to merely flip a switch and offer free 4G LTE-based WiFi to all of our riders instantly.”

cradlepoint.com/sa-via

JBT – IoT

SOLUTION:

COR Series, NetCloud Manager
& NetCloud Perimeter

APPLICATION:

SD-Perimeter, M2M / IoT, Pop-Up Networks,
Network-as-a-Service, Cloud Management

“Our customers can be standing on a PBB, turn on the Cradlepoint, and see their gate system appear on their phone—all in less than a second. When you can do that and realize the data is going through cellular service at that rate, it is truly impressive.”

Indianapolis Fire – First Responders

SOLUTION:

COR Series &
NetCloud Manager

APPLICATION:

In-Vehicle / Mobile Office,
Cloud Management

“Cradlepoint has offered us a stability we’ve never had. With NCM, the my team can manage and troubleshoot our mobile networks remotely—keeping our firefighters and vehicles always connected.”
