Benefits of ViewBoard

The complete line of ViewSonic® ViewBoard® interactive flat panel displays offer more features than interactive white boards or projectors, and easily integrate into Windows, Apple and Google Classrooms.

Better TCO:

- A ViewBoard can be expected to last longer and require far less maintenance

- No filters to clean, no bulbs to replace, no recalibration required

- Easily mount to a cart for cost-effective resource-sharing between classrooms

Seamless Integration with Google Classroom:

- 100% compatible with Google Classroom and all related apps

- Proprietary one-touch save to Google Drive

- Instructors can also quickly create lessons using ViewBoard tools, Google apps, or other cloud-accessible resources – without the need to attach a computer, tablet or other device

Greater Benefits:

- Easy to install with minimal classroom downtime

- Cart or wall mount

- Simple set up and management

- 10 to 20 touch points of interactivity for greater student engagement

- Complete solution includes embedded processor and web browser

- Easily integrate video, computer applications, and web-based content

- Annotate, edit, Skype, save and share

- Device agnostic supports school-issued or student BYOD devices

- Industry-leading warranty

- Award-winning customer support
