

# All Work or All Play

## New Laser Projectors from ViewSonic

Featuring incredible visual detail and amazing color in a larger-than-life image, ViewSonic's high-brightness, ultra-short throw laser projectors deliver a bright and immersive experience. Designed with a laser phosphor light source, these state-of-the-art projectors boast a lamp life of up to 25,000\* hours with virtually zero maintenance. What's more, with a 0.25 ultra-short throw ratio, these projectors can be placed just inches away from a wall or screen to give you a huge image for less cost than a comparably sized display or TV.

So whether for the boardroom, classroom, or your home theater, ViewSonic® laser projectors will WOW any audience with captivating color, crisp detail, and stunning video.
