

WHY TD SYNnex ESD

Electronic Software Delivery

Electronic Software Delivery (ESD) has revolutionized the way software is distributed, significantly reducing unit cost and delivery time. ESD enables instant delivery around the clock quickly from any remote location, which is a great advantage for critical updates and packages.

TD SYNnex took this process one step further and enhanced the process. **TD SYNnex** offers unrivaled end to end solutions that make ESD integration simple and seamless for retailers. Our expert team manages the process from start to finish so you can focus on growing your business.

Deliver applications faster at lower cost
