### Thoughtful modern computing for you

Google Pixel Slate is made to deliver brilliant entertainment, portable performance and everything you love about Google for how you live and work today – all in a beautiful 7mm thin and 1.6 lbs light design.

### Built for powerful performance

Get more done with powerful multitasking tools including split-screen, multi-window browsing, and collaboration apps like Google Docs, Sheets, and Slides.<sup>1</sup>

Always up to date. Always-ready security. Pixel Slate automatically updates in the background, so you'll always have the latest features and security without any hassles.<sup>2</sup>

### Stay connected with Duo Cam

Staying connected is easier than ever with Duo Cam's wide-angle lens that keeps everyone in view and makes them look great, even in low-light.<sup>3</sup>

### Made for each other

Pick up an article you started reading on your phone with Continue Reading or send and receive messages on your Pixel Slate with Messages for Web.<sup>4</sup>

1. For compatible accessories see <https://get.google.com/madefor/>.

2. Auto-updates and auto backup require an Internet connection.

3. Based on Signals Research Group technical study comparing video degradation time over 3G, LTE, and WiFi.

4. Requires Internet connection.

## The Chromebook that goes anywhere, and keeps going

It's barely 2 pounds<sup>1</sup> and is just 13 mm thin, so it's easy to bring along. And with up to 12 hours of battery life, you can go unplugged virtually all day.<sup>2</sup> An 8th Gen Intel® Core™ Processor and Chrome OS keep you moving fast. The Titan™ C security chip and built-in anti-virus software help protect your data, so you can go without worry.<sup>3</sup>

Whether you're collaborating on a Google Doc in a cafe, catching up on emails during a flight, or watching movies while on vacation, you can do more on the go.

1. Weight varies by configuration and manufacturing process.

2. Battery performance is based on a mix of video, web browsing, productivity and other use. Actual results may vary.

3. Built-in virus protection relies on auto-updates and auto backup, which require an internet connection. Intel and Intel Core are trademarks of Intel Corporation in the U.S. and/or other countries.

Automatic Update Expiration, or AUE, is a shelf life that ensures the latest software is always operating on the most suitable hardware. After AUE, devices will no longer have:

### Security

Devices will stop receiving security updates for Chrome OS and Chrome browser as soon as they pass their AUE date.

### Support

Google Support is unable to help with expired devices. Even if they're able to pinpoint the issue, there is no way to push updates or fixes to resolve it.

### Compatibility

As devices miss critical updates, the likelihood increases that certain apps and extensions will become incompatible and stop working altogether.

For advance notice of AUE dates for each Pixelbook device, [click here](#).

Wondering how Chrome can help your customers?

[REQUEST DEMO KIT](#)

For more details, email [googlehw@synnex.com](mailto:googlehw@synnex.com).

SYNNEX only ships demos to reseller directly, not the end user. This allows us to ensure our resellers are using the demos properly. If you are requesting the demo on short notice (within a week of the needed date), please provide your FedEx account information for shipping. Requestor assumes responsibility of the demo and all its contents upon delivery. Because of the high demand of these demos, not all requests will be able to be filled.

### Google's Titan Security Key

Compromised credentials are one of the most common causes of security breaches. Titan Security Keys are phishing-resistant two-factor authentication (2FA) devices that provide the strongest account protection and are recommended for all at-risk users, including IT administrators, executives, politicians, and activists.

### PowerGistics

Offering innovative device charging solutions for education, business, and healthcare, PowerGistics helps users take back the time they waste counting, deploying, and organizing devices. Benefits include barrier-free access, device charging management, device cord organization, industrial quality, and an open-air design that keeps devices cool.

## The Google phone

Pixel 4 is the phone made the Google way. So it's built around the helpful Google software you know and love, that's always getting better.

Keep your data protected. The custom-made Titan M chip helps secure the operating system and your most sensitive data, like passwords and biometric information.<sup>1</sup>

The new Google Assistant is the fast and easy way to get things done, control your phone, and multitask on the go.<sup>2</sup>

Motion Sense™ lets you control features of your phone with just a wave of your hand above the screen.<sup>3</sup>

1. See [g.co/pixel/security](https://g.co/pixel/security) for additional security information.

2. US only. See [g.co/assistant/languages](https://g.co/assistant/languages) for available languages.

3. Coming soon to Japan. Motion Sense functional in the US, Canada, Singapore, Australia, Taiwan, and most European countries. Not all phone features are controlled by Motion Sense. For more information see [g.co/pixel/motionsense](https://g.co/pixel/motionsense).

### Artificial Intelligence at Work

People around the world know Google as one of the smartest technology players, so it should be no surprise that Google put that artificial intelligence to work in the Pixel phone.

#### Smart Photography

The software in Pixel 4 helps users take studio-like photos anywhere. There's nothing new to learn and no editing required.

#### Call Screening

Know who's calling and why before answering, see a real-time transcript of the discussion, and choose or create appropriate responses.

#### Google Lens

Users can scan business cards directly into their contacts, add events to their calendar, use Google Translate with one click and more.

#### Live View Maps

Google Maps makes it easier than ever to navigate the world with live-view directions to get users where they want to go, the first time.

#### Google Assistant

Users can ask questions, play music, control their homes, and more.

## Glass Enterprise Edition 2

A hands-free device for smarter and faster hands-on work

Glass Enterprise Edition has helped workers in a variety of industries—from logistics, to manufacturing, to healthcare, to field services—do their jobs more efficiently by providing hands-free access to the information and tools they need to complete their work.

Watch the video below to learn more.

## Increasing Operational Efficiency

At DHL, there is a supply chain process called "order picking" where employees fulfill customers' orders by scanning items from racks before moving them into totes or bins on carts.

Using Glass with a partner software solution from Ubimax, pickers now receive all picking instructions directly from Glass, right in their line of sight. With "Vision Picking" freeing their hands of paper instructions, real-time picking instructions, and the scanning function of Glass, pickers can work far more efficiently and comfortably.

### The result?

DHL achieved 15% greater operational efficiency on average.

## Enhancing the Patient Experience

Patients should receive doctors' undivided attention during office visits. By using Glass and a solution built by Augmedix, Sutter Health liberates doctors from the hours of documenting and charting health histories and medical conditions so they can spend more time doing the work they love – taking care of patients.

### The result?

Augmedix doctors saved an average of two hours per day increasing visit numbers without sacrificing quality of care.

## Enabling Greater Productivity

GE partnered with Upskill to implement the Skylight platform with Glass in warehouses and manufacturing facilities globally. At Renewable Energy in Pensacola, Florida, wiring technicians experienced a significant percent increase in productivity and meaningful quality improvements while assembling wind turbines using Skylight with Glass.

### The result?

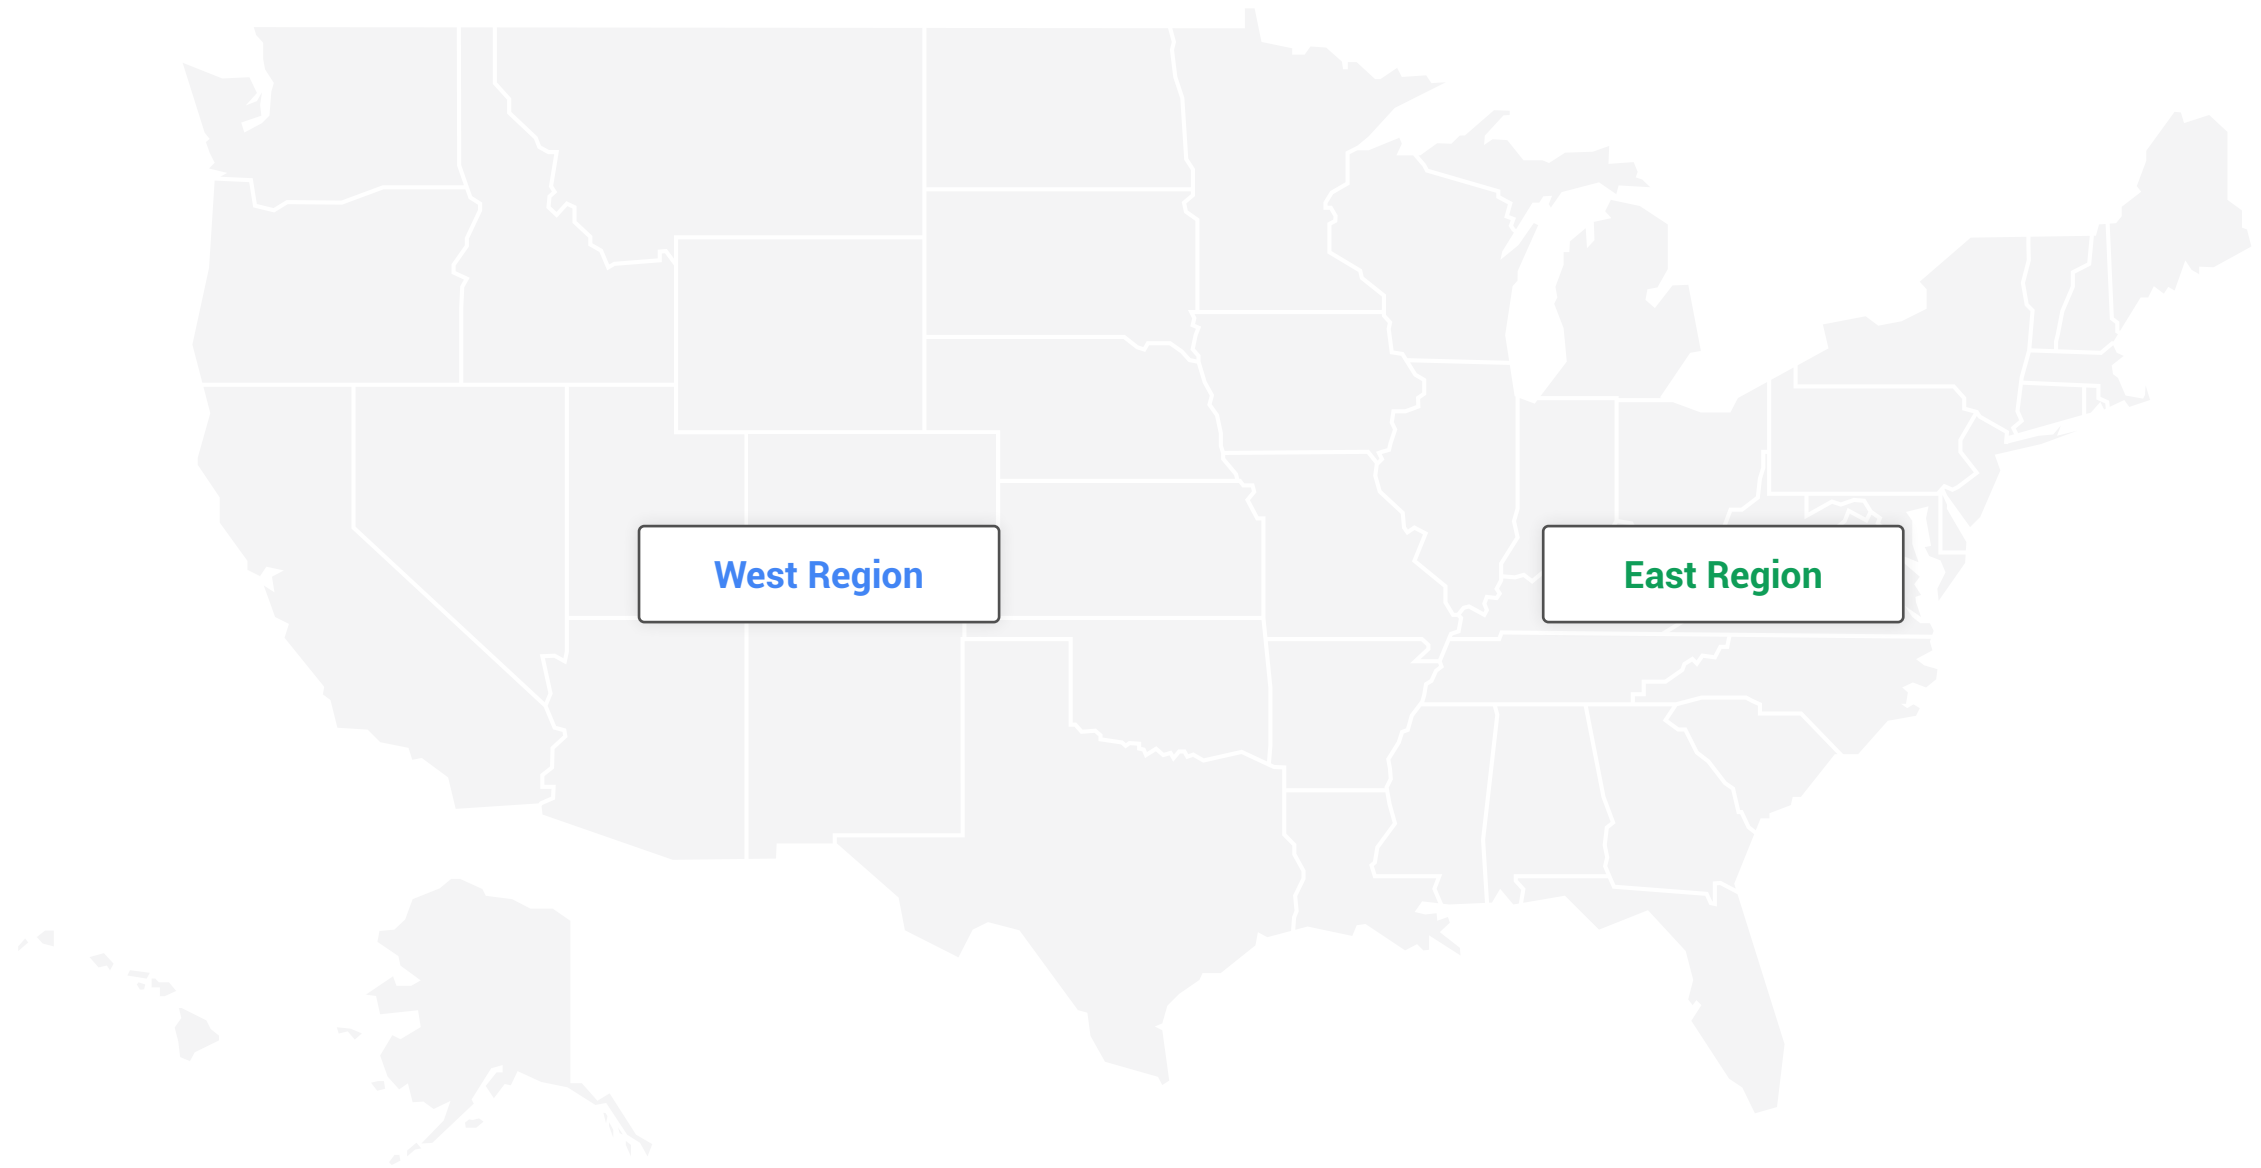

Upskill increased efficiency by 34% in the top box wiring process.
