

Starter Pack Promotion

Glass Enterprise Edition 2 is a lightweight, wearable device that provides hands-on workers with glanceable, voice-activated assistance. With it, your customers can stay focused, improve accuracy, and increase efficiency. Workers in industries like manufacturing, logistics, and field service can complete tasks more easily thanks to the device's hands-free assistance capabilities.

Sell Glass and save

Are you new to selling Glass? Used to sell Glass but have since become inactive? Start selling today and save with the Glass Starter Pack promotion* available through SYNnex.

For a limited time, you can get a bulk discount when you purchase multiple units of Glass pods and Titanium bands.
