SYNNEX GSA SCHEDULE PROGRAM

FAS GSA Schedule Contracts

Leverage the SYNNEX GSA Schedule Program to help grow your government sales! If you have your own schedule, then use our Contractor Teaming Arrangement to add depth to your contract offering without the corresponding administrative headache. If you don't have a schedule, then use ours and do the billing on our behalf as an authorized Dealer, or allow us to invoice your customer and pay you an Agent commission. Each model has its own distinct advantages!

Here's How They Work

TEAMING

1. Your quote to the end-user should identify by line item which products are coming from your schedule, SYNNEX' schedule, and/or are open market. SYNNEX' GSA quote to you includes the GSA "Do Not Exceed" Price (*the end-user's price*) and your teaming cost. The delta between these two amounts is your profit margin.
2. End-user PO is issued to your GSA Schedule contract number as the Team Leader using your billing information. Somewhere in the body of the end-user PO should be a reference to the products that will be sourced through SYNNEX' GSA Schedule. Reseller must provide SYNNEX with a copy of the enduser PO. *This protects your company as the Team Leader by documenting who is responsible for the IFF fees for each part #.*
3. SYNNEX reports the sale and pays the IFF fee for the amount paid by the government customer for the products sourced from our schedule.

DEALER

1. Dealer is authorized to bill the Government and accept payment on behalf of SYNNEX, subject to Dealer's commitment to the following requirements:
2. End-user's PO will be made out to the appropriate SYNNEX GSA contract number and SYNNEX, c/o the Dealer with Dealer's billing information, e.g. Dealer's FEIN, Cage Code, DUNs and Dealer's address.
3. Dealer provides a copy of the end-user's PO when placing a Dealer order with our GSA Team.
4. Dealer invoices government end-user on behalf of SYNNEX. At the time the order is placed by the Dealer, SYNNEX will accrue monies for the IFF and track the total sale price to the end-user for reporting requirements back to GSA. Procurement through SYNNEX alleviates Dealer of this responsibility.

AGENT

1. The agent/reseller works with their end-user to develop an order.
2. The government PO is made out to the appropriate SYNNEX GSA contract number and SYNNEX, c/o Agent/Reseller, 39 Pelham Ridge Drive, Greenville, SC 29615.
3. The reseller forwards the end-user's PO or credit card information to SYNNEX.
4. SYNNEX accepts/rejects order, fulfills, drop-ships, bills and collects from the end-user.
5. Commission amounts will vary depending on the manufacturer. Additional monies may be available depending on the manufacturer, product and available rebates.

**** Orders that reference our GSA Schedule must be sourced/fulfilled through SYNNEX ****

HOW TO PARTICIPATE

E-mail setup request to gsa@synnex.com.
