

Better digital learning through group creation and collaboration

The Samsung Chromebook Collaboration Solution features the 11.6" Samsung Chromebook 3 and SMART amp™ software

Samsung delivers the ultimate collaborative learning tool with Chromebook 3 and SMART amp interactive group workspace software

Now, more than ever, the world is a collaborative place. In order to better prepare your students for this world, Samsung has teamed with SMART Technologies to deliver the ultimate learning solution. The Samsung Chromebook Collaboration Solution pairs the best-in-class Chromebook 3 with the SMART amp platform, for a budget-friendly collaborative learning solution. Together, Chromebook 3 and SMART amp leverage your existing infrastructure, including Google Apps for Education, to provide incredible flexibility and real-time visibility into the learning process, all while enhancing student-led learning. It's a solution that takes co-creation and student-led learning to a whole new level.

This total solution includes:

10 11.6" Chromebook 3 (choice of 2GB or 4GB)

60 SMART amp seats / licenses with a one-year subscription

10 SMART online Educator Professional Development modules for one year for a single teacher

10 Google Device management licenses

The Samsung Chromebook Collaboration Solution

10 11.6" Chromebook 3
(choice of 2GB or 4GB)

60 SMART amp licenses
for 1 year

10 SMART Educator Professional
Development modules for 1 year

10 Google Device Management
Console licenses

10 11.6" Chromebooks for a best-in-class Chrome OS experience

The Samsung Chromebook delivers an active, engaged student experience with the ultimate combination of best-in-class technology and a low barrier to entry. Enhance learning, foster collaboration and inspire students with the Samsung Chromebook 3.

- Tested and passed MIL-STD (U.S. Military Standard) tests; passes a 48" (122cm) drop test¹
- 11-hour battery easily lasts all day, but if for some reason a charge is needed, a 15-minute charge provides 2.5 hours of use
- Large 11.6" anti-glare display with 180° hinge makes sharing ideas simple
- Slim, streamlined profile of 0.7" thin, and light weight of just 2.54 pounds makes it easy for young hands to handle

60 SMART amp licenses to facilitate group learning and collaboration

Designed specifically for the classroom, SMART amp learning software enables co-creation and fosters student collaboration on devices, while giving teachers real-time visibility into the learning process.

- **Anywhere, Anytime Collaboration** Students can co-create content on a digital canvas with their devices, enabling contribution and collaboration to happen from anywhere, at anytime
- **Real-time Insight for Teachers** Teachers can watch collaboration as it unfolds and better understand, assess and guide students, without having to interrupt learning
- **Learning Naturally** The intuitive interface and experience mean that students interact with lessons, content and projects in natural, authentic ways, both inside and outside the classroom
- **Seamlessly Switch Activities** Move between whole class, individual and small-group learning activities, as well as project-based or flipped lesson activities, without wasting class time
- **Gauge Individual Contributions** Gain visibility into the learning process by easily seeing the contributions made by each student during group work in the collaborative workspace
- **Simple, Universal Integration** SMART amp seamlessly integrates with either your students' devices or the interactive display in your classroom, to provide a consistent user experience

10 SMART online Educator Professional Development modules for one year, to educate the educators about this valuable collaboration tool

These modules provide an overview of how to get started with SMART amp, such as creating a class, and creating and navigating around a SMART amp workspace. They also demonstrate the pedagogical teaching approaches that SMART amp supports such as direct instruction, small group learning and features tips from teachers who are currently using SMART amp.

Online Professional Development Modules:

1. Introduction to SMART amp
2. Creating a Class in SMART amp
3. Creating a Workspace in SMART amp
4. Navigating around a SMART amp workspace
5. Efficacy overview
6. Real Life Classroom
7. Using SMART amp with Direct Instruction
8. Using SMART amp in a Whole Class Activity
9. Using SMART amp in a Group Activity
10. Using SMART amp in a Student-Led Learning Environment

10 Google Device Management Console licenses to control all groups and users from a single place

The Google Device Management Console is a web-based management console that makes it easy to deploy and control users, devices and apps across all your Chromebooks.

- **Track Assets** Assign devices to users and get configuration and usage reports
- **Create User Groups** Apply policies, apps and settings to different sets of users
- **Pre-Install and Block Apps** Blacklist, whitelist or pre-install apps, extensions and URLs
- **Control User Access** Prevent outside users from logging in, disable Guest Mode, or designate the specific users within your domain that can use a Chromebook
- **Configure Network Access** Set network and proxy settings to make it easy for users to get up and running and ensure they're protected by web filters and firewalls
- **Customize User Features** Modify user settings like bookmark and app sync across computers and brand your devices with custom Chrome themes
