# *INSIGHT*WARE

Accelerate digital transformation.
Get the actionable insights you need.

# Accelerate digital transformation.
# Get the actionable insights you need.

Plantronics Manager Pro enables your IT teams to access and act on insights from our analytic suites including asset, usage, conversation and acoustic analysis. You can resolve problems from anywhere, before they occur.

Here are five ways Plantronics Manager Pro can help:

1. View and track all headsets company-wide using your web browser.

2. Schedule and push out firmware updates to specific groups and individuals from your web browser —no manual updates.

3. Discover device adoption patterns of Plantronics products across your organization.

4. Analyze conversation dynamics to improve customer satisfaction ratings.

5. Save time and resources by troubleshooting and handling many requests remotely, in near-real time.
