LABOR CATEGORY DESCRIPTIONS

Educational/Experience Substitutions:

4 years of Experience may be substituted for a Bachelor degree requirement
2 years of experience may be substituted for an Associate degree requirement
A Bachelor's degree may be substituted for 4 years of experience
A Master's degree may be substituted for 4 years of experience

Consultant I

Minimum Education/Minimum/General Experience: 1+ years of experience within the general functional area.

Functional Responsibility:

Works with higher-level consultants to provide technical Subject Matter or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using products such as HP software, VMware, and Microsoft enterprise software. Applies methods, theories, and research techniques in the investigation and solution of problems.

Minimum Education: Bachelor's Degree

Consultant II

Minimum Education/Minimum/General Experience: 2+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using software, enterprise software, and database applications. Can perform tasks related to specialized inspection and testing of project output to ensure quality standards are met.

Minimum Education: Bachelor's Degree

Consultant III

Minimum Education/Minimum/General Experience: 3+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using software, enterprise software, and database applications. Can perform tasks related to specialized inspection and testing of project output to ensure quality standards are met. May provide task direction to team members. Can define system objectives and prepare system design specifications.

Minimum Education: Bachelor's Degree

Developer I

Minimum Education/Minimum/General Experience: 1+ years of experience within the general functional area.

Functional Responsibility:

Works with higher-level consultants to provide technical Subject Matter or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using products software, and enterprise software. Applies methods, theories, and research techniques in the investigation and solution of problems.

Minimum Education: Associates Degree

Developer II

Minimum Education/Minimum/General Experience: 2+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using products such as enterprise software, and database applications. Can perform tasks related to specialized inspection and testing of project output to ensure quality standards are met.

Minimum Education: Associates Degree or equivalent experience.

Developer III

Minimum Education/Minimum/General Experience: 3+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Software Testing, ERP, PMO, PPM, Workflow, and Mobile devices. Has specialized training and expertise using products such as enterprise software, and database applications. Can performs tasks related to specialized inspection and testing of project output to ensure quality standards are met. May provide task direction to team members. Can define system objectives and prepare system design specifications.

Minimum Education: Associates Degree or equivalent experience.

Enterprise Systems Management Consultant (ESMC)

Minimum/General Experience: Enterprise Systems Managers have 10+ years experience and/or equivalent certification.

Functional Responsibility:

Responsible for large network management systems. Design, engineer, and implement enterprise management solutions. Integrate IT service management solutions with leading IT infrastructure management solutions. Customize and enhance implementations with field-tested configurations and developed toolkits and software plug-ins. Upgrade legacy implementations of software to more current application versions with new and enhanced capabilities.

Minimum Education: Bachelor's Degree

Minimum Education: Bachelor's Degree

Cloud Solutions Consultant II

Minimum Education/Minimum/General Experience: 2+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in Cloud designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Cloud Computing and Cloud Services. Has specialized training and expertise using Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS). Can performs tasks related to specialized inspection and testing of Cloud project output to ensure quality standards are met.

Minimum Education: Bachelor's Degree

Cloud Solutions Consultant III

Minimum Education/Minimum/General Experience: 3+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in Cloud designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Cloud Computing and Cloud Services. Has specialized training and expertise using Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS). Can performs tasks related to specialized inspection and testing of project output to ensure quality standards are met. May provide task direction to team members. Can define system objectives and prepare Cloud specific specifications.

Minimum Education: Bachelor's Degree

Cloud Developer I

Minimum Education/Minimum/General Experience: 1+ years of experience within the general functional area.

Functional Responsibility:

Works with higher-level consultants to provide technical Subject Matter or Functional expertise and guidance in areas such as Cloud Solutions and emerging Cloud services. Has specialized training and expertise using Infrastructure as a Services, Platform as a Services, Software as a Service. Applies methods, theories, and research techniques in the investigation and solution of Cloud problems.

Minimum Education: Associates Degree

Cloud Developer II

Minimum Education/Minimum/General Experience: 2+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Cloud Solutions and emerging Cloud services. Has specialized training and expertise using Infrastructure as a Services, Platform as a Services, Software as a Service. Can perform tasks related to specialized inspection and testing of Cloud project output to ensure quality standards are met.

Minimum Education: Associates Degree or equivalent experience.

Cloud Developer III

Minimum Education/Minimum/General Experience: 3+ years of experience within the general functional area

Functional Responsibility:

Possess demonstrated knowledge in Cloud designated field or discipline. Provides highly technical Subject Matter and or Functional expertise and guidance in areas such as Cloud Solutions and emerging Cloud services. Has specialized training and expertise Infrastructure as a Services, Platform as a Services, Software as a Service. Can perform tasks related to specialized inspection and testing of Cloud project output to ensure quality standards are met. May provide task direction to team members. Can define Cloud system objectives and prepare Cloud system design specifications.

Minimum Education: Associates Degree or equivalent experience.

Cloud Systems Management Consultant

Minimum/General Experience: 10+ years experience and/or equivalent certification.

Functional Responsibility:

Responsible for large Cloud systems. Design, engineer, and implement Cloud management solutions. Integrate migration services and migration to or governance/management of Cloud computing. Customize and enhance implementations with Cloud configurations. Upgrade legacy implementations of Cloud to more current application versions with new and enhanced capabilities.

Minimum Education: Bachelor's Degree

Executive Cloud Consultant
