## HP CONVERGEDSYSTEM: ALL-INCLUSIVE INTEGRATION OF YOUR DATA CENTER

HP ConvergedSystem is a portfolio of system-based products from Hewlett-Packard that integrates preconfigured IT components into systems for virtualization, cloud computing, big data, collaboration, converged management, and client virtualization. Maximize the speed, agility, and efficiency of your core infrastructure and operations with integrated systems. These systems are designed to deliver fast time-to-value, reduce costs, and mitigate risk as you move your business to the New Style of IT. Let SYNNEX help you choose the right system for your customers' workloads.

### KEY BENEFITS HP CONVERGEDSYSTEMS:

- **ONE TOOL TO MANAGE** - Proactively monitor your infrastructure with HP's OneView device
- **SIMPLIFY IT INFRASTRUCTURES** - So your customers can increase their organizational speed and agility
- **REDUCE SILOED ARCHITECTURES** - A converged infrastructure addresses the problem of siloed architectures by aligning the application with the business
- **ELIMINATE COMPLEXITY** - by reducing the siloes of IT solutions
- **QUICKLY RESPOND TO CHANGING BUSINESS DEMANDS** - Common management of shared resources will allow your customers to simultaneously control, optimize, and orchestrate all infrastructure elements required to deliver a service

### WHY SYNNEX FOR HP CONVERGEDSYSTEMS:

- Rely on SYNNEX' team of experienced professionals to help develop a high-level, step-by-step suggested road map that will move your customers toward a converged infrastructure.
- Fill your pipeline by plugging into our robust demand-generation engine that allows you to jumpstart and fill your sales funnel.
- Make use of SYNNEX' Mobile ConvergedSystems "Shark Tank" demo for hands on real time unified solutions.
- Utilize SYNNEX' solutions architects and engineers with a combined 20+ years of experience and multiple unique certifications.

### BOTTOM LINE: PARTNERING WITH SYNNEX JUST MAKES SENSE
