

Simplify the way you acquire, consume, and pay for server technology

HPE Subscription for Servers¹

HPE Financial Services can help customers find new ways to plan for, acquire, consume and adapt the technology systems needed for business transformation.

Flexibility to enable your business

Many businesses are looking for a simple and straightforward way to manage the equipment that powers their growing business, while also removing the concern around failing hardware and costly maintenance. Since modern technology is essential to productivity and agility, businesses are seeking out a solution that will give them the convenience they desire, the customization that suits their needs, and the adaptability they demand to meet their objectives. HPE Subscription for Servers provides a worry-free, flexible, and turnkey solution that lets you package best-in-class hardware, software, accessories, and services into a convenient per-unit model.

With an upgrade option built in every 3 years, you gain the ability to quickly adapt to changing business needs sooner, rather than having to deal with long depreciation cycles that impede growth. Remove the burden of a lengthy IT evaluation and procurement process, reduce your total cost of ownership, and spend more time focusing on business growth and innovation.

Convenient, fast, and flexible

Easy and streamlined acquisition

Save time by simplifying the planning, acquisition and replacement of your servers with the flexibility to customize the right solution for your business.

¹ Certain terms and conditions may apply. This program is currently available in the U.S., Canada, Mexico, the United Kingdom, France, Australia, New Zealand and Singapore.

Stress-free management and maintenance

Reduce the ongoing costs of updates and repairs and minimize business disruptions with best-in-class HPE support services.

– HPE Foundation Care

Simplify your day-to-day system support experience and meet your availability commitments with a choice of three different coverage levels and response times. One call helps resolve problems for hardware, firmware, or software.

– HPE Proactive Care

Prevent problems and stabilize IT by utilizing secure, real-time, predictive analytics and proactive consultations when your products are connected to HPE. With proactive support, you don't simply address problems as they arise, but can see and resolve potential problems before they impact your business. It also provides HPE Foundation Care reactive support with rapid access to a Technical Support Specialist who manages your case from end to end.

Stay on top of cutting-edge workplace technology

Keep updates for all your servers on a consistent schedule and remove concern around managing a complicated equipment disposal process.

The business benefits of HPE Subscription for Servers

- Configurable solution to fit your needs with hardware, software and support services included
- Quick quoting process, and convenient monthly payment structure, with a simple and streamlined contract²
- Renew and refresh every 3 years to take advantage of newer and more powerful server technology

HPE Subscription is a flexible solution that provides simple and easy access to servers, accessories, software, and support services, in a configurable per unit, flat-fee model. We understand that one size does not fit all needs. As your business evolves and your technology requirements change, we'll work with you to determine the right solution that will allow you to adapt and be flexible, so you can meet your long-term goals.
