

# Pay as you grow

**HPE Financial Services** can help customers find new ways to plan for, acquire, consume and adapt the technology systems needed for business transformation.

Pay as you grow is a flexible payment structure that lets you minimize front-end costs when acquiring new equipment and provides you with the budgeting flexibility to ramp-up deployment, installation, and training for your new technology. Pay as you grow is particularly effective at allowing businesses to properly match early ramp-up usage with internal departmental billing by distributing equipment acquisition costs more equitably in the early months.
