

Managed Wi-Fi as a Service

Worry-Free Wireless for your Business

Enterprise Wi-Fi Services at an SMB Price

Your customers and employees demand reliable Wi-Fi everywhere, always. So, you want to provide an excellent wireless experience but may lack the needed IT resources and staff, or maybe you are frustrated with your current Wi-Fi solution. We can deliver the Wi-Fi solution your business requires with Wi-Fi as a Service.

We want to empower your network by offering a simple, secure and cost-effective way to provide award-winning Wi-Fi to your employees' guests. Using Aruba's APs, switches and Cloud Network Management, you'll have advanced capabilities like customizable guest Wi-Fi, time-range profiles, network reporting and more. We will bring you Enterprise-grade tools at an SMB price.

In addition, we will provide:

- Zero-Touch Setup: We take care of delivering the services so you can take care of running your Wi-Fi ready business!
- 24x7 networking monitoring, troubleshooting, configuration, and firmware management with no on-site technical expertise required.
- Insights & analytics that help you understand what's going on with your network so you can make better decisions for your business!

Partner Benefits

- Peace of mind that your Aruba wireless and wired network can be easily deployed and setup, with proactive 24x7 monitoring and troubleshooting coverage.
- Wi-Fi and network management and troubleshooting without the cost of hiring IT staff.
- Simple, scheduled maintenance and firmware updates
- Enterprise-class guest access management
- Simple, low monthly payments
