

Work better together on the go

Stay connected wherever you are with Microsoft accessories

Collaboration and mobility tools are essential in today's digital workplace

73%

of all teams will have **remote workers** by 2028.¹

50%

of employees globally are **working outside the office** for at least 2.5 days a week.²

85%

of employees and executives cite a **lack of collaboration** and poor communication as the primary **reason for failed projects**.³

43%

of workers chose team building and **collaboration as essential elements** of the "best" workplaces.⁴

Achieve more together, from virtually anywhere

The rise of mobile technology, cloud computing, and remote working makes effective collaboration and mobility tools essential in today's modern workplace. Microsoft offers a wide range of accessories that empower your employees to get more done together on the go.

- › **Make meetings more effective** by using a Microsoft Wireless Display Adapter to quickly display presentations from your laptop to a big screen.
- › **Reduce distractions** and make conversations more productive with headsets that have noise cancelling microphones, high quality sound, and earpieces designed for all-day comfort.
- › **Connect** with coworkers and customers **from anywhere** using the LifeCam Studio for Business webcam.
- › **Get work done on the go** with portable mice that tuck into a pocket or bag.
