• 1323lbs (600kg) load capacity for 25U version

• 1760lbs (800kg) load capacity for 45U version

• Five-year warranty

ACCESSORIES

RACK FANS & AIRFLOW MANAGEMENT

Rack fans and blanking panels promote proper airflow to control the temperature in the rack and keep equipment cool.
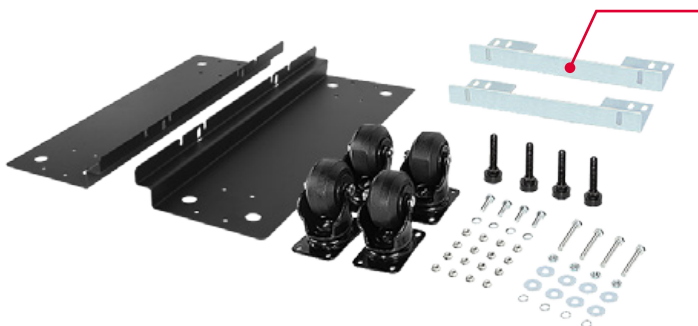

CABLE MANAGEMENT

Cable management accessories organize cabling inside the rack. Troughs and ladders manage cables outside of the rack or from one enclosure to another.

SHELVING

Rack shelves allow for management and storage of equipment that is not rack mountable. Cantilever, sliding and fixed styles available.

RACK HARDWARE AND SECURITY

CyberPower Carbon™ Rack Hardware offers additional options such as casters, stabilizing kits and mounting hardware. Combination lock guards access to 24U and 42U rack enclosures.
