GoldSeal VaaS

Your Video Meeting. Your User Experience. At Your Fingertips.

▶ Enjoy business-quality video and audio conferencing as an integral part of your daily communications routine.

▶ Invite participants, join and host meetings at the click of a button.

▶ Monitor your videoconferencing usage.

Videoconferencing has never been easier. In just a few clicks, you can schedule a video meeting and invite participants into your own Virtual Meeting Room (VMR) in the cloud, while you join from your PC, tablet or video system. No complicated planning or set up required.

GoldSeal VaaS – Personal User

▶ Connect up to 30 video and audio participants in a virtual meeting room (VMR).

▶ Download software clients to make videoconferencing widely accessible.

▶ Enter the meeting with video conference systems, software clients or your browser.

▶ Secure meetings with PIN code and lock conference features.

▶ Schedule VMR meetings using Microsoft Outlook.

▶ Use iOS/Android app for instant mobile meeting access. Access monthly overview and call details.

GoldSeal Video as a Service

Your Video Meeting. Your User Experience. At Your Fingertips.

- ▶ Enjoy centralized subscription management of your subscription services.
- ▶ Access real-time and historical usage information. Use drag-and-drop functionality for bulk subscriber uploads.
- ▶ Provide remote assistance for all virtual meeting rooms. Manage ongoing conferences.

Microsoft Outlook Integration

(Supports Office 2007, 2010 and 2013 on Windows 7 and 8).

- ▶ Scheduling video meetings in your Virtual Meeting Room (VMR) is straightforward when you schedule directly in Microsoft Outlook.
- ▶ Call details and dial-in information will automatically be entered into the Outlook calendar of all meeting participants.

MyMeeting iOS and Android app

- ▶ Join video meetings over the phone with a single click. Automatically dials local number based on location.
- ▶ Invite participants using your email contacts. Schedule calls using your calendar.
